About Amgen
Our Mission: To Serve Patients

Amgen harnesses the best of biology and technology to fight the world's toughest diseases, and make people's lives easier, fuller and longer. We discover, develop, manufacture and deliver innovative medicines to help millions of patients. Amgen helped establish the biotechnology industry more than 40 years ago and remains on the cutting-edge of innovation, using technology and human genetic data to push beyond what's known today. Our investment in research and development has yielded a robust pipeline that builds on our existing portfolio of medicines to treat cancer, heart disease, osteoporosis, inflammatory diseases and rare diseases.

Amgen is one of the 30 companies that comprise the Dow Jones Industrial Average®, and we are also part of the Nasdaq-100 Index®, which includes the largest and most innovative non-financial companies listed on the Nasdaq Stock Market based on market capitalization.
REACHING SERIOUSLY ILL PATIENTS WORLDWIDE

We have a presence in approximately 100 countries and regions worldwide and our innovative medicines have reached millions of people in the fight against serious illnesses. We focus on four therapeutic areas, oncology, inflammation, general medicine and rare disease, delivering innovative medicines to help people live longer, fuller, happier lives.

INVESTING IN SCIENCE AND INNOVATION

We pursue new ways to do science using tools like AI, generative biology and human data to discover what is not yet known and develop new precision medicines to fight the world’s toughest diseases.

MAKING MEDICINES SAFELY AND RELIABLY

Many of Amgen’s medicines are made through a highly complex process involving living cells. Our commitment is to deliver for “every patient, every time,” and we have a long-running reputation for the reliability of our supply chain.

OPERATING RESPONSIBLY

Making a positive difference in the world is at the heart of what we do at Amgen — and it goes beyond making vital medicines. We also help build a better world by focusing on environmental, social and governance issues that matter most to our business and our stakeholders.

THE AMGEN FOUNDATION

The Amgen Foundation is inspiring the next generation of scientists and future problem solvers, providing best-in-class science education at no cost to students through its signature programs, including LabXchange, Amgen Scholars, and the Amgen Biotech Experience. To date, the Foundation has donated more than $450 million to local, regional, and international non-profits that impact society in inspiring and innovative ways.
