

Disclosure required by CA AB1305

By 2027, through our environmental sustainability program, we are working to achieve carbon neutrality for Amgen-owned and -operated facilities and operations (Scope 1 and 2)^{[1][2]} Amgen performs [third party assurance review of its carbon emissions data](#).

While Amgen prioritizes innovation and efficiency projects to address scope 1 carbon, we recognize high quality, third-party verified carbon offsets will be necessary to some of our Scope 1 emissions. As such, in compliance with California AB1305, Amgen provides the following information about offsets purchased in 2024.
